

# Call for Artists: “Resiliency”

Chandra Cerrito / Art Advisors is seeking artists from the Bay Area for a local medical center.

For over 20 years Contra Costa Health Services has been building a collection of artworks by leading Bay Area artists. For this particular call, we are seeking works for a vital artery of the Contra Costa Regional Medical Center in Martinez, connecting the Emergency Department, Intensive Care Unit, Psychiatric Emergency and Radiology departments. We are interested in works engaging with a broad concept of the theme of RESILIENCY, including resiliency of essential workers, in physics, identity, social justice, migration stories, the natural world and as creative impulse. Both 2-dimensional and wall-mounted 3-dimensional artworks may be applicable. Works available or representative of the artist's work, if able to do commissions, can be presented. Artworks should be suitable for a public setting visited by a diverse audience of all ages. We are interested in a broad spectrum of works though violent, religious, and sexual imagery would not be appropriate for this collection.
